MOOCs

The Benefits

✓ **Strategic choices and Unique insights**

Easy access to and a direct comparison of the world's best distance-learning courses all in one place.

✓ **Explore every option**

An extensive list of subject areas gives you the opportunity to explore a university course prior to committing.

✓ **Expectations met**

Unique filtering and ranking facilities enabling you to focus on key areas of interest.

From the student dashboard at unifrog.org/student/home, click the 'Go to tool' button on the **MOOC** box.

MOOC
Make your first shortlist
Start >

You will see a list of MOOC topics.

You can sort this list alphabetically or by the number of courses offered at the moment.

You can even search by particular career (e.g. accountant/engineer) or interest by typing into search bar.

Select topics that interest you, up to a maximum of 10.

Any of these interest you?

Select up to 10 at a time by clicking on the topics you like.

On the next page, the Shortlist, the map shows you the location of all the courses on a world map. These courses are all online so you don't need to travel anywhere!

Scrolling further down the Shortlist page allows you to see lots of information about each course.

Some have introductory videos.

At any point you can go back to the Longlist to add in more courses, and from the Shortlist page you can also delete courses.

Once you are happy with the MOOCs on your Shortlist, click save.
